SMOKE EATER INSTALLATION

Smoke eaters are scheduled to be installed prior to the 2008 Membership Appreciation Night.

2008 HUNTER SAFETY COURSES

There will be two hunter safety courses next year. Please watch the web site and future newsletters for details.

RANGE SAFETY AND DRIVING ON RANGES

This is a very busy time at the ranges. Please remember that it is **MANDATORY** that range lights be turned on at all times when anyone is down-range. Whoever turns lights on is responsible for turning them off.

Please familiarize yourself with our range rules which are posted at each range, on the bulletin board in the clubhouse and on the web site. It is your responsibility to read, know and follow these rules. Please also be courteous of your fellow shooters.

Please stay on the slate-covered roads and do not drive through the fields. As wet weather comes, it creates a lot of ruts that the mowers have to bounce over. There is an entrance right at the 300 meter targets. Entrance to the 400 meter targets is gained using the road to the 500 meter targets.

MESSAGE FROM THE PRESIDENT

This is a very busy time of year and the next few months will be even busier as hunting season will be in full swing. We hope you will continue to attend monthly meetings – there will be 50/50 drawings and refreshments as usual. Also, please watch the web site and future newsletters for notices and details on winter workshops and activities. We wish you a safe hunting season and, most of all, encourage you to enjoy all that PA has to offer.
