

Shippensburg Fish and Game Association
Board of Directors Meeting
December 12, 2023

Called to order by board chairman Jerrid Lozenski.

In November the club had a request from a Fredrick County police officer Grant Smith for a Special Ops military unit from Fort Detrick to use the club grounds for training. More information was requested. They answered most of our questions. There was a lengthy discussion.

It was pointed out that this is a sportsman club not a training ground for special ops. They have a place to train. The decision was made not to allow the group to train here. The members of the group can apply and become members if they wish. Once they are a member they may bring a guest (to be escorted by the member) three times in a lifetime to use the facilities. After the third visit the guest must become a member. They may not train here as a group.

400 members have not paid their 2024 yet.

The officers dinner will be held January 19th, 6PM at the University Grill.

The water line sprang a leak where a splice was done by Snokes Excavating when they lowered the water line. A member spotted the leak and called Bob McClure who called Ralph Carothers. Snoke's was called and they repaired the leak. Will there be a charge for the repair or will it be done under an implied warranty for the work done? Can this happen again at the same spot.?

Working is being done on the tickets for the March drawing. They will be available at the Membership Appreciation night Jan. 27th. There will be gun board to pick the guns from. Winners may select a gift certificate if they do not wish to select a gun. There will also be a gun given as a door prize to be pick from the gun board after other prizes given. A life membership will also be given as a prize.

Proposed dates for the NRA Pistol courses in 2024 are as follows-

January 20th Basic Pistol Shooting 0730 to 1700

February 10th Basic Pistol Shooting 0730 to 1700
